

Inspyre customers, create brand loyalty.

Pregis' new Inspyre offering gives brand owners the power to create an unforgettable connection with their customers during the unboxing experience. Inspyre debuts with a full range of customizable colors, allowing companies to carefully cultivate the look and feel of their packaging to reflect their brand and deliver a "wow factor" to customers.

With fewer chances to physically connect with consumers, it's imperative for brands to capitalize on opportunities to make a lasting impression – let the unboxing experience be your brand's statement on how you care for your customers. Inspyre your customers to share and recommend your products!

You worked hard to create and cultivate your brand, let our packaging deliver it to your customers.

AirSpeed® HC

On-demand cushioning, block and brace, wrapping and void fill.

Features:

- Curate the ultimate unboxing experience
- Packaging that represents your brand
